An introduction to over 30 of the best versions of this familiar tale, providing a detailed examination of the social history behind the literary Little Red Riding Hood.

Vol. 9 is a record of the first joint symposium of the International Astronomical Union and the Union internationale d'histoire et de philosophie des sciences, held at the University of Hamburg, Aug. 22-24, 1964.

Presents the many faces of Little Red Riding Hood. Bringing together 35 of the best versions of the tale, from the Brothers Grimm to Anne Sexton, the author uses the tales to explore questions of Western culture, sexism and politics.

From his first feature film, *Fear and Desire* (1953), to his final, posthumously released *Eyes Wide Shut* (1999), Stanley Kubrick excelled at probing the dark corners of human consciousness. In doing so, he adapted such popular novels as *The Killing*, *Lolita*, *A Clockwork Orange*, and *The Shining* and selected a wide variety of genres for his films -- black comedy (*Dr. Strangelove*), science fiction (*2001: A Space Odyssey*), and war (*Paths of Glory* and *Full Metal Jacket*). Because he was peerless in unveiling the intimate mysteries of human nature, no new film by Kubrick ever failed to spark debate or to be deeply pondered. Kubrick (1928-1999) has remained as elusive as the subjects of his films. Unlike many other filmmakers he was not inclined to grant interviews, instead preferring to let his movies speak for themselves. By allowing both critics and moviegoers to see the inner workings of this reclusive filmmaker, this first comprehensive collection of his relatively few interviews is invaluable. Ranging from 1959 to 1987 and including Kubrick's conversations with Gene

Siskel, Jeremy Bernstein, Gene D. Phillips, and others, this book reveals Kubrick's diverse interests -- nuclear energy and its consequences, space exploration, science fiction, literature, religion, psychoanalysis, the effects of violence, and even chess -- and discloses how each affects his films. He enthusiastically speaks of how advances in camera and sound technology made his films more effective. Kubrick details his hands-on approach to filmmaking as he discusses why he supervises nearly every aspect of production. "All the hand-held camerawork is mine," he says in a 1972 interview about *A Clockwork Orange*. "In addition to the fun of doing the shooting myself, I find it virtually impossible to explain what I want in a hand-held shot to even the most talented and sensitive camera operator. " Neither guarded nor evasive, the Kubrick who emerges from these interviews is candid, opinionated, confident, and articulate. His incredible memory and his gift for organization come to light as he quotes verbatim sections of reviews, books, and articles. Despite his reputation as a recluse, the Kubrick of these interviews is approachable, witty, full of anecdotes, and eager to share a fascinating story. Gene D. Phillips, S.J., is a professor of English at Loyola University in Chicago, where he teaches fiction and the history of film. He is the author of many notable books on film and is a founding member of the editorial board of both *Literature/Film Quarterly* and *The Tennessee Williams Journal*. He was acquainted with Stanley Kubrick for twenty-five years.

This Oxford companion provides an authoritative reference source for fairy tales, exploring the tales themselves, both ancient and modern, the writers who wrote and reworked them and related topics such as film, art, opera and even advertising.

Review text: "Der Band bietet wiederum eine Fülle von Informationen, die nicht nur für Erzählforscher, Philologen und Ethnologen, sondern auch für alle interessierten Laien wertvoll sind." Leander Petzoldt in: Germanistik Redaktion 2011, Band 52, Heft 1-2.

Although Stanley Kubrick adapted novels and short stories, his films deviate in notable ways from the source material. In particular, since *2001: A Space Odyssey* (1968), his films seem to definitively exploit all cinematic techniques, embodying a compelling visual and aural experience. But, as author Elisa Pezzotta contends, it is for these reasons that his cinema becomes the supreme embodiment of the sublime, fruitful encounter between the two arts and, simultaneously, of their independence. Stanley Kubrick's last six adaptations—*2001: A Space Odyssey*, *A Clockwork Orange* (1971), *Barry Lyndon* (1975), *The Shining* (1980), *Full Metal Jacket* (1987), and *Eyes Wide Shut* (1999)—are characterized by certain structural and stylistic patterns. These features help to draw conclusions about the role of Kubrick in the history of cinema, about his role as an adapter, and, more generally, about the art of cinematic adaptations. The structural and stylistic patterns that characterize Kubrick adaptations seem to criticize scientific reasoning, causality, and traditional semantics. In the history of cinema, Kubrick can be considered a modernist auteur. In particular, he can be regarded as an heir of the modernist avant-garde of the 1920s. However, author Elisa Pezzotta concludes that, unlike his predecessors, Kubrick creates a cinema not only centered on the ontology of the medium, but on the staging of sublime, new experiences.

In this major work by the distinguished Swiss folklorist Max LA1/4thi, the traditional fairytale is examined from two related points of view, that of aesthetics and that of anthropology. LA1/4thi shows that fairytales are more than just a pleasing form; they present a particular way of looking at the world and at human existence. Thus, they must be evaluated in terms of what they say about man and the human condition. This exemplary study will be read with enjoyment and profit not only by the literary scholar and folklore professional but by any reader who has ever delighted in fairytales.

In the late 18th and early 19th centuries, attitudes toward history and national identity fostered a romantic rediscovery of folk and fairy tales. This is the period of the Golden Age of folk and fairy tales, when European folklorists sought to understand and redefine the present through the common tales of the past, and long neglected stories became recognized as cultural treasures. In this rich collection, distinguished expert of fairy tales Jack Zipes continues his lifelong exploration of the story-telling tradition with a focus on the Golden Age. Included are one hundred eighty-two tales--many available in English for the first time--grouped into eighteen tale types. Zipes provides an engaging general Introduction that discusses the folk and fairy tale tradition, the impact of the Brothers Grimm, and the significance of categorizing tales into various types. Short introductions to each tale type that discuss its history, characteristics, and variants provide readers with important background information. Also included are annotations, short biographies of folklorists of the period, and a substantial bibliography. Eighteen original art works by students of the art department of Anglia Ruskin University not only illustrate the eighteen tale types, but also

provide delightful—and sometimes astonishing—21st-century artistic interpretations of them.

*My France* focuses on some of the most intriguing aspects of French life: politics, myths, personalities, public problems, actions, and conflicts. The topics Weber treats range from sports to religion, and include comments on folklore, national socialism, antisemitism, and famous Frenchmen.

*Folktales from Eastern Europe* presents 71 tales from Ashkenasic culture in the most important collection of Jewish folktales ever published. It is the second volume in *Folktales of the Jews*, the five-volume series to be released over the next several years, in the tradition of Louis Ginzberg's classic, *Legends of the Jews*. The tales here and the others in this series have been selected from the Israel Folktale Archives at The University of Haifa, Israel (IFA), a treasure house of Jewish lore that has remained largely unavailable to the entire world until now. Since the creation of the State of Israel, the IFA has collected more than 20,000 tales from newly arrived immigrants, long-lost stories shared by their families from around the world. The tales come from the major ethno-linguistic communities of the Jewish world and are representative of a wide variety of subjects and motifs, especially rich in Jewish content and context. Each of the tales is accompanied by in-depth commentary that explains the tale's cultural, historical, and literary background and its similarity to other tales in the IFA collection, and extensive scholarly notes. There is also an introduction that describes the Ashkenasic

culture and its folk narrative tradition, a world map of the areas covered, illustrations, biographies of the collectors and narrators, tale type and motif indexes, a subject index, and a comprehensive bibliography. Until the establishment of the IFA, we had had only limited access to the wide range of Jewish folk narratives. Even in Israel, the gathering place of the most wide-ranging cross-section of world Jewry, these folktales have remained largely unknown. Many of the communities no longer exist as cohesive societies in their representative lands; the Holocaust, migration, and changes in living styles have made the continuation of these tales impossible. This volume and the others to come will be monuments to a rich but vanishing oral tradition

The fairy tale may be one of the most important cultural and social influences on children's lives. But until *Fairy Tales and the Art of Subversion*, little attention had been paid to the ways in which the writers and collectors of tales used traditional forms and genres in order to shape children's lives – their behavior, values, and relationship to society. As Jack Zipes convincingly shows, fairy tales have always been a powerful discourse, capable of being used to shape or destabilize attitudes and behavior within culture. For this new edition, the author has revised the work throughout and added a new introduction bringing this classic title up to date.

imagination. How have our conceptions of 'criminal' behaviour developed? How has the French genre of crime fiction, encompassing, but not limited to, the polar, the roman policier and film noir, evolved and reinvented itself? The volume adopts a number of theoretical approaches, which range from sociological and criminological discourse to literary criticism and postcolonial theory (by Chamoiseau, Durkheim, Deleuze, Foucault, Glissant, Krafft-Ebing and Todorov). In a wide-ranging series of innovative and challenging readings, it examines ideas which include the evolving concept of crime in literature from Voltaire and censorship through to scientific constructions of criminality in the nineteenth century and in the postcolonial era, both within and outside metropolitan France. The volume also explores 'textual crimes' in contemporary Martinican women's writing, crime as a genre in André Hélène, Serge Arcouët and Jean Meckert, Sébastien Japrisot and Dominique Manotti, and visual responses to crime by artist Jacques Monory and filmmaker Didier Bivel.

“Zipes ably demonstrates that moral, political, religious, and other ideologies have shaped these apparently innocent narratives.” —Lore and Language This revised, expanded, and updated edition of the 1979 landmark *Breaking the Magic Spell* examines the enduring power of fairy tales and the ways they invade our subjective world. In seven provocative essays, Zipes discusses the importance of investigating oral folk tales in their socio-political context and traces their evolution into literary fairy tales, a metamorphosis that often diminished the ideology of the original narrative.

Zipes also looks at how folk tales influence our popular beliefs and the ways they have been exploited by a corporate media network intent on regulating the mystical elements of the stories. He examines a range of authors, including the Brothers Grimm, Hans Christian Anderson, Ernst Bloch, Tolkien, Bettelheim, and J.K. Rowling to demonstrate the continuing symbiotic relationship between folklore and literature. “The name Jack Zipes is synonymous with highly regarded and widely read anthologies and critiques of fairy tales.” —Choice “Fairy Tales are a highly fashionable study today for literary scholars as well as folklorists, and another new book shows what a range of interest can be evoked by them. This time in Jack Zipes’ interesting and vigorous study.” —Encounter “Places traditional tales in their socio-political, economic and cultural contexts.” —Teacher Librarian “Zipes reveals the extraordinary breadth of his acquaintance with both recent and classic literature in the field of folk and fairytale research.” —Fabula “Zipes manages the impressive trick of communicating both detail and overview without simplifying either . . . the serious folklorist should definitely have this on his bookshelf.” —Fortean Times

Le fantastique, dans l'histoire littéraire, appartient au XIXe siècle ; tout au plus accorde-t-on à Cazotte d'en être un habile précurseur... Et pourtant, l'étrangeté du Diable amoureux est bien de son siècle, elle en dit les inquiétudes et les hésitations de la pensée. Dès lors son analyse ouvre nombre de pistes à la rencontre des écrivains " à imagination " du siècle des Lumières, Bordelon,

Mouhy, Prévost, Lubert ou encore Crébillon. Cet ouvrage choisit de définir le fantastique au XVIIIe siècle non comme un genre en gestation mais comme un registre d'écriture caractérisé par une visée fondamentalement ambiguë envers la référence comme envers la vérité. Le fantastique innerve les récits les plus divers - contes de fées, contes orientaux, histoires véritables, romans cabalistiques, fictions scientifiques, parodies et bien sûr romans - et met en évidence les dangereuses accointances du merveilleux et du vraisemblable dans l'écriture de fiction. Retour d'une croyance refoulée au travers d'un merveilleux souvent badin, le registre fantastique témoigne des mutations profondes que connaît la culture du XVIIIe siècle et montre, non sans paradoxe, comment l'expérience d'un certain désarroi peut devenir source de plaisir littéraire.

To write this history of the imagination, Le Goff has recreated the mental structures of medieval men and women by analyzing the images of man as microcosm and the Church as mystical body; the symbols of power such as flags and oriflammes; and the contradictory world of dreams, marvels, devils, and wild forests. "Le Goff is one of the most distinguished of the French medieval historians of his generation . . . he has exercised immense influence."—Maurice Keen, *New York Review of Books* "The whole book turns on a fascinating blend of the brutally materialistic and the generously imaginative."—Tom Shippey,
