With a dual focus on knowledge acquisition and skills development, it includes extensive source analysis work and is packed with original colour sources, graphs, maps and more to hold learners' attention. A dedicated chapter on exam skills fully develops all the skills directly relevant to assessment and the alternative to coursework. Including careful provision for EAL learners, a high level of detail and challenge will stretch your most able students and enable critical thinking.

School Leadership in Diverse Contexts demonstrates the centrality of context to understanding school leadership. It offers varied portrayals of leadership in a diverse range of distinct settings. Each chapter highlights the prominence of context in understanding the realities of school leadership, focusing on issues and influences that school leaders face, strategies school leaders adopt to deal with the complexities of their work, and conceptualisations of school leadership relevant to the context. An impressive array of international experts examine this neglected area of research by considering school leadership in nine heterogeneous contexts, providing rich and varied portrayals of school leadership and suggesting ways in which the leadership may be enhanced. School Leadership in Diverse Contexts is an ideal book for undergraduate and postgraduate students, particularly those studying units in educational leadership, comparative education and educational policy. Similarly undergraduate and postgraduate students engaged with development studies, history, sociology, law, human geography will be attracted to this text.
