When a teenage girl turns up missing in the small southern town of Prescott, Missouri, it's up to a slick and temperamental sheriff and a unique psychic to solve the utterly horrifying case.

Over the past decade, photographer Robert Burley has traveled the world documenting the abandonment and destruction of film-based photography, namely, the factories where film was produced and the labs that developed it. Burley's atmospheric large-format photographs transport viewers to rarely seen sites where the alchemy of the photographic process was practiced over the last century—from the Polaroid plant in Waltham, Massachusetts to the Kodak-Pathé plant in Chalon-sur-Saône, France, the birthplace in 1827 of photography itself. As both fine art and documentary, *The Disappearance of Darkness* is an elegiac reflection on the resilience of traditional art forms in the digital era and a vital commemoration of a century-old industry that seems to have disappeared overnight.

steadfast faith in God to comfort her, Anita refused to give up hope that she would be found. *Eight Days in Darkness* chronicles the shocking events of Anita's kidnapping, including her transport across state lines, and the impressive efforts of local authorities and FBI agents which led to her rescue and the dramatic capture and conviction of her abductor. Anita's story is still used today as a case study for prospective FBI agents, and *Eight Days in Darkness* paints a portrait of the real-life battle between good and evil.

"At me too someone is looking..." —Samuel Beckett, *Waiting for Godot* In a venturesome study of corporeality and perception in contemporary drama, Stanton B. Garner, Jr., turns this awareness of the spectator's gaze back upon itself. His book takes up two of drama's most essential and elusive elements: spatiality, through which plays establish fields of visual and environmental relationship; and the human body, through which these fields are articulated. Within the spatial terms of theater, this book puts the body and its perceptual worlds back into performance theory. Garner's approach is phenomenological, emphasizing perception and experience in the theatrical environment. His discussion of the work of playwrights after 1950—including Samuel Beckett, Eugene Ionesco, Peter Weiss, Harold Pinter, Sam Shepard, David Mamet, Edward Bond, Maria Irene Fornes, Caryl

Churchill, and Ntozake Shange—explores the body's modes of presence in contemporary drama. Drawing on work in areas as diverse as scenographic theory, medical phenomenology, contemporary linguistics, and feminist theories of the body, Garner addresses topics such as theatrical image, stage objects, dramatic language, the suffering body, and the staging of gender, all with a view toward developing a phenomenology of *mise en scene*.

On the night of March 26, 1938, nuclear physicist Ettore Majorana boarded a ship, cash and passport in hand. He was never seen again. In *A Brilliant Darkness*, theoretical physicist João Magueijo tells the story of Majorana and his research group, “the Via Panisperna Boys,” who discovered atomic fission in 1934. As Majorana, the most brilliant of the group, began to realize the implications of what they had found, he became increasingly unstable. Did he commit suicide that night in Palermo? Was he kidnapped? Did he stage his own death? *A Brilliant Darkness* chronicles Majorana's invaluable contributions to science—including his major discovery, the Majorana neutrino—while revealing the truth behind his fascinating and tragic life.

Urrutia after she took her son to school one morning in 1992. [book title] describes her ordeal. After days of interrogation and torture, Maritza was ultimately spared because her family was able to contact influential intermediaries, including [author], who was in Guatemala working for the Catholic Church's Human Rights Office. Here [author] brings to life the players who achieved Maritza's release: the church, the U.S. State Department, the U.S. Congress, numerous NGOs, guerrilla groups, politicians, students, and the media. The book is a study of the complex and often cruel politics of human rights, and its themes reverberate from Guatemala to Guantánamo to Iraq."--Back cover.

The camp is nothing if not diverse: in kind, scope, and particularity; in sociological and juridical configuration; in texture, iconography, and political import. Adjectives of camp specificity embrace a spectrum from extermination and concentration, to detention, migration, deportation, and refugee camps. And while the geographic range covered by contributors is hardly global, it is broad: Chile, Rwanda, Canada, the US, Central Europe, Morocco, Algeria, South Africa, France and Spain. And yet—is to so characterize the camp to run the risk of diffusing what in origin is a concentration into a paratactical series of “identity particularisms”? While *The Camp* does not seek to antithetically promulgate a universalist vision, it does aim to explore the

imbrication of the particular and the universal, to analyze the structure of a camp or camps, and to call attention the role of the listener in the construction of the testimony. For, by naming what cannot be said, is not every narrative of internment and exclusion a potential site of agency, articulating the inner splitting of language that Giorgio Agamben defines as the locus of testimony: “to bear witness is to place oneself in one’s own language in the position of those who have lost it, to establish oneself in a living language as if it were dead, or in a dead language as if it were living.”

To Write What one Could Not Tell Anyone You who live in all tranquility So warm and comfortable in your houses, You who come home at night to find The table laid and friendly faces around you, Consider if this is a man, He who toils in the mud, Who knows no rest, Who fights for a crust of bread, Who dies for the slightest reason. Consider if this is a woman, She who has lost her name and her hair, And even the strength to remember, Her gaze blank and her bosom chilled, Like a frog in winter. Do not forget that this happened, No, do not forget it: Engrave these words in your heart. Think of them in your home, in the street, When you sleep, when you rise; Repeat them to your children. Or else your house will crumble, You will be overcome by illness, And your children will turn away from you (Levi 1987:9, the translations is mine). Originally published in Spanish as Voto de tinieblas, this is a translation by Kieran Tapsell. Among the stories and characters of Vow of Darkness it unfolds a reflection around the prohibitions and dangers that a nun living the confused and violent period of independence from Spain must face when she decides to be a writer in a world where writing is an exclusively male activity. Alongside these adventures is woven a reflection about personal and collective memory. It outlines how the indigenous population extinguishes destroyed by war, smallpox and shame. And yet, there are characters trying to give sense to their own lives through generosity, compassion, understanding the other, identifying with their memory, diluting cultural distances, changing the roles and transforming the victorious on defeated or trying to solve the antagonisms that the nun draws in the written geographies of her body throughout philanthropy.

This ambitious study explores how important darkness--artificial darkness--was, as an actual technology, in producing not just photographs but visual novelties and experiments in cinema in the nineteenth century. The study plays out against a backdrop of urban history, where most scholars have focused on the growth of artificial light and the electrification of cities. Elcott's study challenges that approach. In considering zones of darkness, it ranges from the sites of production (darkrooms, studios) to those of reception (theaters/cinemas/arcades) that shaped modern media and perceptions. He argues that, in the nineteenth century, the avant-garde was often less interested in the filmed image than in everything surrounding it: the screen, the projected light, the darkness, the experience of disembodiment. He argues that darkness has a history separate from night, evil, or the color black, and has a specifically modern manifestation as a media technology. We are all aware of the "velvet light trap" in photography, but at the heart of this book are technologies of darkness crucial to cinema that were commonly known as "the black screen," but have, over time, faded from the storied discourse. visual arts addressing three main areas of inquiry: Duras' films, film criticism, and photographic criticism; issues of racial difference, immigration, and the representation of the native "other" in her fiction; and issues relating to gender and sexuality, heterosexual relations, and sexual practices in her work. Distributed by ISBS. c. Book News Inc. History as Apocalypse is a reenactment of the history of the Western consciousness from the Homeric and Biblical revolutions through Finnegans Wake. This occurs through a historical, literary, and theological analysis of the Christian epic tradition. While attention is focused primarily upon Dante, Milton, Blake, and Joyce, the Classical and Biblical foundations of the Christian epic are explored with the intention of discovering an organic unity in the evolution of the Western consciousness. Our primary epics are identified as revolutionary breakthroughs, not only as transformations of consciousness but also records of social revolutions. The Christian epic is both a consequence and a primary embodiment of the decisive historical revolutions, revolutions culminating with the ending of our historical evolution.
