She doesn't hesitate to accept, eager to escape the close-minded small town where she's been taunted and teased for seeing otherworldly creatures. Anywhere has to be better than home. Yet she's only permitted to go if she brings her twin sister Sabine along for the ride. Inside the walls of the castle-like fortress on the isolated campus, the girls find many secrets and hidden mysteries. Layla's never shied from challenges and is determined to pass her first year. However, with more unusual and bigger monsters lurking at the school, she struggles to keep her ability a secret. On top of the pressure to succeed in the competitive school, she also attracts the attention of a new student, Flynn Madsen. He's not the only one who's curious about her, but he seems to have the same gift of sensing these supernatural beings. In a new school, it's impossible to know who to trust and what to believe. By keeping her own secrets closely guarded, Layla has to have faith in herself. Not her bookish roomie, not the cute new boy who seems too curious about her. Join Layla and her friends through their high school years as adventures and dangers await with each year!

In 1940, native West Texan Roy H. Elrod joined the Marine Corps. A few years later his unit, the 8th Marine Regiment, went into the fight at Guadalcanal, where he commanded a platoon of 37 mm gunners. They endured Japanese attacks, malarial tropical weather, and starvation rations. His combat leadership earned him a Silver Star and a battlefield promotion. On D-Day at Tarawa his platoon waded their 37 mm cannons ashore, each weighing nearly 1,000 pounds, through half a mile of bullet-laced surf to get to an island where the killing never stopped. His was the only platoon to get its guns ashore and into action that first day. At Saipan, Elrod commanded a platoon of 75 mm halftracks, but he was riddled with shrapnel from an enemy artillery shell that took him out of the war. Fred H. Allison interviewed Elrod, drew upon wartime letters home, and provided annotations to the narrative of this young Marine infantry officer, a job that had an extremely low survival potential.

Aggies by the Sea tells the story of Texas A&M University at Galveston, an unusual educational institution that began operation in 1962 as a maritime academy with only twenty-three students and now enrolls more than 1600 undergraduates studying the sciences, technology, business, and cultural aspects of the sea. Ninety-one photographs portray the growth of the Galveston school from its humble beginnings to what it is today: a four-year university, nationally prominent for its focus on the world's oceans. Filled with lively anecdotes, reminiscences, and biographical sidebars, this lavishly illustrated book presents history with a bounce. While its appeal will be targeted to those who have passed through Galveston's program, the record it preserves also records an important chapter in the story of the state of Texas' public university armada.

Cheerleading, an American invention with roots in the institutions of sport and education, has become a staple in American culture, and the cheerleader is a nationally recognized symbol, invested with both positive and negative cultural values. The cheerleader is an icon, an instantly recognized symbol of youthful prestige, attractiveness, leadership, and popularity. Equally recognized is the cheerleader as symbol of mindless enthusiasm, shallow boosterism, and objectified sexuality. How the cheerleader came to represent both is explored in this extensively documented book spanning the history of cheerleading. Issues include the social context of the institutionalization and adult control of cheerleading; the changing patterns of social class, age, race, and gender of participants; the development of cheerleading in professional sports in the early 1960s and its relation to mass media entertainment and advertising; the evolution of its style and content; and the meanings, values, and symbolism associated with cheerleading in American culture.
