Product Description: Rated the most satisfying textbook by students in independent research, Spiceland/Sepe/Nelson/Tomassini's "Intermediate Accounting, Fifth edition", has the quality, flexibility, and attention to detail students need to master a challenging subject. It's your vehicle to success in the intermediate accounting course and beyond! Spiceland/Sepe/Nelson/Tomassini provides a decision maker's perspective to emphasize the professional judgment and critical thinking skills required of accountants today. Reviewers, instructors, and student users of Spiceland have enthusiastically embraced the relaxed, conversational writing style that engages students in an enjoyable and effective learning experience. In addition, accounting's preeminent textbook website provides students a wide variety of electronic learning resources, including new iPod content for the fifth edition. Coach, Study Guide, Instructor's Manual, Solutions Manual, Testbank, and Website content are all created by authors, ensuring seamless compatibility throughout the Spiceland learning package. The end-of-chapter material, too, is written by the author team and tested in their own classes before being included in Intermediate Accounting. Few areas see the kind of rapid change that accounting does, and the Spiceland team is committed to keeping current. The fifth edition fully integrates all the latest FASB Standards and the authors are committed to keeping you updated with all relevant content changes throughout the edition.

While many texts characterize themselves as having either a user approach or a preparer approach, Williams Financial Accounting is written for faculty who want to strike a balance between these approaches. Business majors will find relevance in the Ethics, Fraud & Corporate Governance, Your Turn and Case in Point boxes throughout the chapters while accounting majors will receive a firm grounding in accounting basics that will prepare them for their intermediate course. A unique feature is the multimedia companion, My Mentor. This text-specific technology resource (available free on the books website) uses video clips, animated graphics, PowerPoints and Excel templates to demonstrate accounting concepts visually. This allows students to link concepts and numbers together in an interactive rather than print environment.
