### Comparative Law Review

This book presents a general picture of recent research activities related to location-based services. Such activities emerged in the last years especially concerning issues of outdoor/indoor positioning, smart environment, spatial modelling, personalization and context-awareness, cartographic communication, novel user interfaces, crowdsourcing, social media, big data analysis, usability and privacy. This book is comprised of a selection of the best papers presented during the 11th International Symposium on Location Based Services, which was held in Vienna (Austria) between 26th and 28th November 2014.

Provides definitions of approximately 290,500 English words, arranged alphabetically in twenty volumes, with cross-references, etymologies, and pronunciation keys, and includes a bibliography.

Approximately 26,000 firms and individuals -- more than 1,000 new to each edition of this invaluable directory -- are listed, arranged into subject sections covering 14 general fields of consulting activity ranging from agriculture to computer technology. In all, more than 400 specialties are represented, including finance, computers, fundraising and many others. Entries provide complete contact information as well as concise descriptions of each organization's activities. Includes a free inter-edition supplement.

This book constitutes the proceedings of the 7th International Conference on Mobile Computing, Applications, and Services (MobiCASE 2015) held in Berlin, Germany, in November 2015. The 16 full and 4 poster papers were carefully reviewed and selected from 43 submissions, and are presented together with 4 papers from the First Workshop on Situation

central conclusion is that Trajan's reign was indeed the apogee of the principate established by Augustus and his successors. It saw the birth of the 'imperate' - the full realization of the imperial system. Moreover, the emperor himself is seen as the pivotal character in this development. Trajan's contemporary reputation as Optimus Princeps seems to have been richly deserved.

A selection of annotated references to unclassified reports and journal articles that were introduced into the NASA scientific and technical information system and announced in Scientific and technical aerospace reports (STAR) and International aerospace abstracts (IAA)
