The aim of this monograph is to present some of the basic ideas and results in pure combinatorial logic and their applications to some topics in proof theory, and also to present some work of my own. Some of the material in chapter 1 and 3 has already appeared in my notes Introduction to Combinatorial Logic. It appears here in revised form since the presentation in my notes is inaccurate in several respects. I would like to express my gratitude to Stig Kanger for his invaluable advice and encouragement and also for his assistance in a wide variety of matters concerned
