had on the decade of queer of color critique that followed and introduces a new generation of readers to a future not yet here.

This book takes an imaginative approach to visual identity. The appearance of organization---corporations, states, and networks---is a game of legitimacy, and an art of stealth. Partially science-fiction story, equally strategic study, essay, comic, and sketchbook, *Uncorporate Identity* is a concept album of design and architecture. Design studio Metahaven explores branding and identity as geopolitical phenomena---together with architects, geographers, and thinkers including Boris Groys, China Mieville, Keller Easterling, David Grewal, Marina Vishmidt, and others.

In the world of *Divergent*, society is divided into five factions - Candor, Abnegation, Dauntless, Amity and Erudite. Every year, all sixteen-year-olds must select the faction to which they will devote the rest of their lives. For Beatrice Prior, the decision is between staying with her family and being who she really is. Her choice shocks everyone, including herself. During the initiation that follows, Tris and her fellow initiates undergo extreme physical tests of endurance and intense psychological simulations, with devastating consequences. As initiation transforms them, Tris must determine who her friends really are - and whether she can trust the man who both threatens and protects her. Because Tris has a deadly secret. And as growing conflict threatens to unravel their seemingly perfect society, this secret might save those she loves...or it might destroy her.

as sharia—an Arabic-origin term referring to the straight path, the path God revealed for humans, the norms and rules guiding Muslims on that path, and Islamic law and normativity as enshrined in sacred texts or formal statute. Yet the ways in which Muslim men and women experience the myriad dimensions of sharia often go unnoticed and unpublicized. So too do recent historical changes in sharia judiciaries and contemporary strategies on the part of political and religious elites, social engineers, and brand stewards to shape, solidify, and rebrand these institutions. *Sharia Transformations* is an ethnographic, historical, and theoretical study of the practice and lived entailments of sharia in Malaysia, arguably the most economically successful Muslim-majority nation in the world. The book focuses on the routine everyday practices of Malaysia's sharia courts and the changes that have occurred in the court discourses and practices in recent decades. Michael G. Peletz approaches Malaysia's sharia judiciary as a global assemblage and addresses important issues in the humanistic and social-scientific literature concerning how Malays and other Muslims engage ethical norms and deal with law, social justice, and governance in a rapidly globalizing world.
