We also include a business glossary and a listing of business contacts, such as industry associations and government agencies. Next, we profile hundreds of leading middle market companies. Our company profiles include business descriptions and up to 27 executives by name and title. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.

PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. This book offers contemporary perspectives on English pronunciation teaching and research in the context of increasing multilingualism and English as an international language. It reviews current theory and practice in pronunciation pedagogy, language learning, language assessment, and technological developments, and presents an expanded view of pronunciation in communication, education, and employment. Its eight chapters provide a comprehensive and up-to-date analysis of pronunciation and the linguistic and social functions it fulfils. Topics include pronunciation in first and second language acquisition; instructional approaches and factors impacting teachers' curriculum decisions; methods for assessing pronunciation; the use of technology for pronunciation teaching, learning, and testing; pronunciation issues of teachers who are second-language speakers; and applications of pronunciation research and pedagogy in L1 literacy and speech therapy, forensic linguistics, and health, workplace, and political communication. The chapters also critically examine the research base supporting specific teaching approaches and identify research gaps in need of further investigation. This rigorous work will provide an invaluable resource for teachers and teacher educators; in addition to researchers in the fields of applied linguistics, phonology and communication.
