"Dazzling...Critics hailed Buwalda as 'The Dutch answer to Jonathan Franzen', but his brilliance is entirely unique."--The Times (UK) Siem Sigerius is a beloved, brilliant professor of mathematics with a promising future in politics. His family—including a loving wife, two gorgeous, intelligent stepdaughters and a successful future son-in-law—and carefully appointed home in the bucolic countryside complete the portrait of a comfortable, morally upright household. But there are elements of Siem's past that threaten to upend the peace and stability that he has achieved, and when he stumbles upon a deception that's painfully close to home, things begin to fall apart. A cataclysmic explosion in a fireworks factory, the advent of internet pornography, and the reappearances of a discarded, dangerous son all play a terrible role in the spectacular fragmentation of the Sigerius clan. A riveting portrait of a family in crisis and the ways that even the smallest twists of fate can forever change our lives, Bonita Avenue is an incendiary, unpredictable debut of relationships torn asunder by lies, and minds destroyed by madness.

"A hero is a common man who happens to be in the right place at the right time; and who finds the moral power to do something that is extraordinary." Justin is such a man. His strength and determination gives him the power to rise above the pool of human mediocrity; and bring the whole race with him.

The enthralling new novel from the acclaimed author of *Fallen Land*, *The River of Kings*, and *Gods of Howl Mountain* Retired racehorse jockey and Vietnam veteran Anse Caulfield rescues exotic big cats, elephants, and other creatures for Little Eden, a wildlife sanctuary near the abandoned ruins of a failed development on the Georgia coast. But when Anse's prized lion escapes, he becomes obsessed with replacing her—even if the means of rescue aren't exactly legal. Anse is joined by Malaya, a former soldier who hunted rhino and elephant poachers in Africa; Lope, whose training in falconry taught him to pilot surveillance drones; and Tyler, a veterinarian who has found a place in Anse's obsessive world. From the rhino wars of Africa to the battle for the Baghdad Zoo, from the edges of the Okefenokee Swamp to a remote private island off the Georgia coast, Anse and his team battle an underworld of smugglers, gamblers, breeders, trophy hunters, and others who exploit exotic game. *Pride of Eden* is Taylor Brown's brilliant fever dream of a novel: set on the eroding edge of civilization, rooted in dramatic events linked not only with each character's past, but to the prehistory of America, where great creatures roamed the continent and continue to inhabit our collective imagination. Artists have always been recyclers. This gallery of work made from repurposed materials is both a visual delight and "a source of ideas for crafters" (*Library Journal*). Exciting and inspiring, the work in this book ranges from clever and humble personal accessories to unique and important large-scale works of art, including paper art, fashion, jewelry, housewares, interiors, and installations.

*DIV*For James Barilla and his family, the dream of transforming their Columbia, South Carolina, backyard into a haven for wildlife evoked images of kids catching grasshoppers by day and fireflies at night, of digging up potatoes and picking strawberries. When they signed up with the National Wildlife Federation to certify their yard as a wildlife habitat, it felt like pushing back, in however small a way, against the tide of bad news about vanishing species, changing climate, dying coral reefs. Then the animals started to arrive, and Barilla soon discovered the complexities (and possible mayhem) of merging human with animal habitats. What are the limits of coexistence, he wondered?/divDIV /divDIVTo find out, Barilla set out across continents to explore cities where populations of bears, monkeys, marmosets, and honeybees live alongside human residents. *My Backyard Jungle* brings these unique stories together, making Barilla's yard the centerpiece of a meditation on possibilities for coexistence with animals in an increasingly urban world. Not since Gerald Durrell penned *My Family and Other Animals* have readers encountered a naturalist with such a gift for storytelling and such an open heart toward all things wild./div

Jesus didn't say that the world would know we are his followers by our biting rhetoric, our political leanings, our charity work, or even by our knowledge of Scripture. He said the world would know us by our love for one another. Yet it's so easy to put others at arm's length, to lash out, to put up walls. Deidra Riggs wants us to put our focus on self-preservation aside and, like Jesus, make the first move toward reconciliation. In *One*, Riggs shows readers that when Jesus offered himself up in our place, he was not only purchasing our salvation but also setting an example for us to follow. She helps readers understand that they are secure in God's inexhaustible love, making them free to love others lavishly--not just in what they do but in what they say, what they don't say, what they will endure, and what they will forgive. Anyone who longs for unity in the church, in their family, and in their community will find in this book both inspiring examples of loving done well and encouragement to begin the often unnoticed hard work of building bridges with those around them.

After moving to a humble cottage outside of a tiny Texas town, Debra Monroe rids herself of an abusive husband, battles sexist contractors and workers as she renovates her home, and finally, after several disheartening letdowns, is able to adopt her beautiful baby daughter, Marie.
