365 Connecting Questions for Couples  
One Conversation a Day for a Journey Into Love to Grow a Powerful Relationship

Presenting an innovative approach to performance studies and literary history, Soyica Colbert argues for the centrality of black performance traditions to African American literature, including preaching, dancing, blues and gospel, and theatre itself, showing how these performance traditions create the 'performative ground' of African American literary texts. Across a century of literary production using the physical space of the theatre and the discursive space of the page, W. E. B. Du Bois, Zora Neale Hurston, James Baldwin, August Wilson and others deploy performances to re-situate black people in time and space. The study examines African American plays past and present, including *A Raisin in the Sun*, *Blues for Mister Charlie* and Joe Turner's *Come and Gone*, demonstrating how African American dramatists stage black performances in their plays as acts of recuperation and restoration, creating sites that have the potential to repair the damage caused by slavery and its aftermath. Should women be priests? Should women submit to their husbands? Is premarital sex okay?

Inflammatory questions such as these have splintered Christianity and polarized the church. In *Sex, Gender, and Christianity*, a cadre of seasoned college professors offers the modest proposal that honest, fruitful conversations about these questions will take place only if we develop the ability to deal with sex, gender, and the Christian faith with the academic rigor and perspectives of our various disciplines. This volume contributes an unprecedented collection of first-rate articles from a variety of disciplines--from the social sciences to history, from literary criticism to theology--that will challenge college administrators, professors, and students to address fractious questions in an atmosphere of scholarly inquiry. Contributors: David G. Allen, Karen Trimble Alliaume, Brian Bantum, Mikee C. Delony, James G. Dixon III, Antonios Finitis, Theresa J. FitzPatrick, Allyson Jule, Patricia O'Connell Killen, Caryn D. Riswold, and Tina Schermer Sellers

Common wisdom has it that when Auden left England for New York in January 1939, he had already written his best poems. He left behind (most critics believe) all the idealisms of the 1930s and all serious concerns to become an unserious poet, a writer of ingenious, agreeable, minor lyrics. Lucy McDiarmid argues that such readers, spoiled by the simple intensities of apocalypse, distort and misjudge Auden's greatest work. She shows that

once Auden was freed from the obligation to criticize and reform the society of his native country, he devoted his imaginative energies to commentary on art. And about art he was never complaisant: with greater passion than he had ever used to undermine "bourgeois" society, Auden undermined literature. Every major poem and every essay became a retractio, a statement of art's frivolity, vanity, and guilt. Auden's *Apologies for Poetry*, then, sets forth the unorthodox notion that the chief subject of later, "New Yorker" Auden is the insignificance of poetry. Commenting on all the major poems and essays from the 1930s through the 1960s, and analyzing manuscript revisions and unpublished works, it charts the changes in Auden's poetics in the light of his shift from an oral to a written model of poetry. In his earliest work Auden voices the tentative hope that poems can be like loving spoken words, transforming and redeeming, themselves carriers of value. After 1939 he takes for granted a written model. His later essays and poems deny art spiritual value, claiming that "love, or truth in any serious sense" is a "reticence," the unarticulated worth that exists--if at all--outside the words on the page. Later Auden creates a poetics of apology and self-deprecation, a radical undermining of poetry itself. Originally published in 1990. In the remote highlands of the country of Georgia, a small group of mountaineers called the Khevsurs used to express sexuality and romance in ways that appear to be highly paradoxical. On the one hand, their practices were romantic, but could never lead to marriage. On the other hand, they were sexual, but didn't correspond to what North Americans, or most Georgians, would have called sex. These practices were well documented by early ethnographers before they disappeared completely by the midtwentieth century, and have become a Georgian obsession. In this fascinating book, Manning recreates the story of how these private, secretive practices became a matter of national interest, concern, and fantasy. Looking at personal expressions of love and the circulation of these narratives at the broader public level of the modern nation, *Love Stories* offers an ethnography of language and desire that doubles as an introduction to key linguistic genres and to the interplay of

This volume contains 11 new papers on Shakespeare written by members of the Department of English at the University of Copenhagen and other Danish universities plus a few international Shakespeare scholars. They fit into an overall theme and are included because they are about Shakespeare -- as text, as theatre, in his age, and through the ages. Beside showing many different ways of thinking and writing about Shakespeare, the eleven articles fall into a pattern if read together in the order they are printed. The papers are varied and wide-ranging: contemporary contexts, tradition, language and style, performance, translation and modern appropriation.

Slang is often seen as a lesser form of language, one that is simply not as meaningful or important as its 'regular' counterpart. Connie Eble refutes this notion as she reveals the sources, poetry, symbolism, and subtlety of informal slang expressions. In *Slang and Sociability*, Eble explores the words and phrases that American college students use casually among themselves. Based on more than 10,000 examples submitted by Eble's students at the University of North Carolina at Chapel Hill over the last twenty years, the book shows that slang is dynamic vocabulary that cannot be dismissed as deviant or marginal. Like more formal words and phrases, slang is created,

modified, and transmitted by its users to serve their own purposes. In the case of college students, these purposes include cementing group identity and opposing authority. The book includes a glossary of the more than 1,000 slang words and phrases discussed in the text, as well as a list of the 40 most enduring terms since 1972. Examples from the glossary: group gropes -- encounter groups squirrel kisser -- environmentalist Goth -- student who dresses in black and listens to avant-garde music bad bongos -- situation in which things do not go well triangle -- person who is stupid or not up on the latest za -- pizza smoke -- to perform well dead soldier -- empty beer container toast -- in big trouble, the victim of misfortune parental units -- parents

This collection of short stories, including many new translations, is the first to span the whole of Japan's

modern era from the end of the nineteenth century to the present day. Beginning with the first writings to assimilate and rework Western literary traditions, through the flourishing of the short story genre in the cosmopolitan atmosphere of the Taisho era, to the new breed of writers produced under the constraints of literary censorship, and the current writings reflecting the pitfalls and paradoxes of modern life, this anthology offers a stimulating survey of the development of the Japanese short story. Various indigenous traditions, in addition to those drawn from the West, recur throughout the stories: stories of the self, of the Water Trade (Tokyo's nightlife of geishas and prostitutes), of social comment, love and obsession, legends and fairytales. This collection includes the work of two Nobel prize-winners: Kawabata and Oe, the talented women writers Hirabayashi, Euchi, Okamoto, and Hayashi, together with the acclaimed Tanizaki, Mishima, and Murakami. The introduction by Theodore Goossen gives insight into these exotic and enigmatic, sometimes disturbing stories, derived from the lyrical roots of Japanese literature with its distinctive stress on atmosphere and beauty.

This book investigates the scope and significance of Stanley Cavell's lifelong and lasting contribution to aesthetic understanding. Focusing on various strands of the rich body of Cavell's philosophical work, the authors explore connections between his wide-ranging writings on literature, music, film, opera, autobiography, Wittgenstein, and Austin to contemporary currents in aesthetic thinking. Most centrally, the writings brought

together here from an international team of senior, mid-career, and emerging scholars, explore the illuminating power of Cavell's work for our deeper and richer comprehension of the intricate relations between aesthetic and ethical understanding. The chapters show what aesthetic understanding consists of, how such understanding might be articulated in the tradition of Cavell following Wittgenstein and J. L. Austin, and why this mode of human understanding is particularly important. At a time of quickening interest in Cavell and the tradition of which he is a central part and present-day leading exponent, this book offers insight into the deepest contributions of a major American philosopher and the profound role that aesthetic experience can play in the humane understanding of persons, society, and culture.

“Another traumatic blow to your head may cause hallucinations ranging from brilliancy to absurdity,” said the brain surgeon at the Landstuhl Medical Center in Germany where Staff Sergeant Travis Morgan first received medical evaluation following a mortar blast in Afghanistan. That explosion wounded Travis and killed Mojo, his German shepherd patrol dog. Three years later, Travis received such a severe whack when Bruno Tron, a strong, young Al Capone imitator, hoped to

become rich by shooting the two security officers and robbing their armored truck at a Walmart Super Center near Neosho, Missouri. The robber, a self-proclaimed squatter, intended to use the Morgan family wilderness upon the Ozark Plateau to receive aerial drug drops flown from Mexico. Thus Travis, his father, mother, and Honcho, their family dog must be eliminated. After whacking Travis over his skull with a sack of stolen quarters at Walmart, Bruno tossed him into a sinkhole on the Morgan family wilderness and used the \$400,000 for his start into crime. Travis hallucinating back and forth through time and space, helped: the founding fathers within the colonial era, George Washington winning the American Revolutionary War, Daniel Boone cutting through Cumberland Gap into Kentucky, Lewis and Clark finding the Pacific Ocean, and Wells-Fargo starting stagecoach routes to California. His Grandma's skeleton, sitting with her back to wall of the sinkhole, enabled Travis's two-way communications by way of his hallucinations. Ironically, Bruno Tron met an unusual fate. However, after his rescue, Travis realized his dream of lecturing about colonial history at the University of Virginia, his alma mater, buying a house, and marrying the beautiful brunette, Abby Principe, his childhood sweetheart.

European (and, later, American) writers, artists, travelers, and thinkers compelled to represent what, to their eyes, seemed to be an abundance of erotic relations between men in the Islamic world. Whether feared or desired, the mere possibility of sexual contact with or between men in the Middle East has covertly underwritten much of the appeal and practice of the enterprise of Orientalism, frequently repeating yet just as often upending its assumed meanings. Traces of this undertow abound in European and Middle Eastern fiction, diaries, travel literature, erotica, ethnography, painting, photography, film, and digital media. Joseph Allen Boone explores these vast representations, linking European art to Middle Eastern sources largely unfamiliar to Western audiences and, in some cases, reproduced in this volume for the first time.

The papers in this volume define the departure from the margin to the centre, assess emerging literatures and shifting language concerns, dismantle the hegemony of colonial English, propose alternatives to the 'imperialism' that underlies globalisation, and question hegemonic assumptions in language and literature.

This marriage-enrichment book explores how God, in the Song of Solomon, instills in his human creatures the passion to create within the marital bond a life of joy and commitment. The definitive guide to the meaning of today's most popular praise and worship songs. Few things influence Christians' understanding of the faith more than the songs they sing in worship. The explosion of praise and worship music in the last fifteen years has profoundly affected our experience of God. So what are those songs telling us about who God is? In what ways have they made us more faithful disciples of Jesus Christ? In what ways have they failed to embody the full message of the gospel? Working with the lists of the most frequently sung praise and worship songs from recent years, the authors of this book offer an objective but supportive assessment of the meaning and contribution of the Christian music that has been so important in the lives of contemporary believers.

My interest in nonverbal behavior has remained constant for over 15 years. I think this has been the case because nonverbal behavior has proved a very fascinating and challenging topic. Others might suggest that I am just a slow learner. With enough time in any area, however, one begins to feel that he or she has some special insights to offer to others. About the time that I was struck with that thought, approximately two and a half years ago, I was developing the first version of my sequential functional model of nonverbal exchange. It seemed to me that the functional model might provide a very useful framework for a book discussing and analyzing nonverbal behavior. I did not want (nor do I think I had the patience) to write a comprehensive review of research on nonverbal behavior. Other works, such as Siegman and Feldstein's (1978) edited *Nonverbal Behavior and Communication*, and Harper, Wiens, and Matarazzo's (1978) *Nonverbal Communication: The State of the Art*, have provided excellent reviews of the research on nonverbal behavior. Instead, what I have tried to do in this book is to use nonverbal behavior as a vehicle for discussing social behavior. In a very real sense, this analysis of nonverbal behavior is a means to an end, not an end in itself. A consequence of this approach is that this review is a selective one, unlike the comprehensive works mentioned earlier. Life outside the mobile phone is unbearable.' Lily, 19, factory worker. an estimated 250 million Chinese people have left their villages in recent decades to live and work in urban areas. Xinyuan Wang spent 15 months living among a community of these migrants in a small factory town in southeast China to track their use of social media. It was here she witnessed a second migration taking place: a movement from offline to online. As Wang argues, this is not simply a convenient analogy but represents the convergence of two phenomena as profound and consequential as each other, where the online world now provides a home for the migrant workers who feel otherwise 'homeless'. Wang's fascinating study explores the full range of preconceptions commonly held about Chinese people – their relationship with education, with family, with politics, with 'home' – and argues why, for this vast population, it is time to reassess what we think we know about contemporary China and the evolving role of social media.

The voluminous contemporary critical work on English Renaissance androgyny and transvestism debates has not

fully uncovered the ancient Greek and Roman roots of the gender controversy. *Erotic Beasts and Social Monsters* argues that the variant Renaissance views on the androgyne's symbolism are, in fact, best understood with reference to classical representations of the double-sexed or gender-baffled figure, and with the classical merging of that figure with images of beasts and monsters. Grace Tiffany's discussion of ancient beast-androgynes draws on satire as well as myth, citing Archilochus alongside Homer, Aristophanes with Euripides, and Juvenal next to Ovid and Apuleius. She thus illuminates a gender dispute as old as Western culture itself.

This text seeks to offer a new theory of narrative in its uncovering of how conversations and comic interchanges between lovers in stories create an intimacy and happiness of the everyday. Drawing on a diverse body of theory (from sociolinguistics to philosophy to literary criticism) and reading an unexpectedly eclectic group of texts (works by Shakespeare and Tolstoy appear beside *Casablanca* and *I Love Lucy*) Kay Young explores how narrative couples play together, struggle together, and return to one another to experience what it means to be in a relationship over time.

The field of literature changed dramatically at the end of the eighteenth century, as under the shadow of Romanticism the novel became the most important literary genre of its day. Often neglected, the novels of the Romantic era puzzle critics yet are much more concerned with the unexpected, the unconventional, and the uncanny than their immediate predecessors or successors, and their authors include some of the most important novelists of British literary history—Jane Austen, Fanny Burney, James Hogg, Mary Shelley, and Sir Walter Scott among them. Featuring contributions from distinguished scholars in the field, *Recognizing the Romantic Novel* evaluates the vibrancy and centrality of the Romantic novel, showcasing the important new voices and directions in the field and showing it can hold its own in the canon of literary scholarship. “These essays offer us a lens through which we may recognize the Romantic novel as it has never been recognized before.”—*Times Literary Supplement*

No longer is pregnancy a repulsive or shameful condition in Hollywood films, but an attractive attribute, often enhancing the romantic or comedic storyline of a female character. Kelly Oliver investigates this curious shift and its reflection of changing attitudes toward women's roles in reproduction and the family. Not all representations signify progress. Oliver finds that in many pregnancy films, our anxieties over modern reproductive practices and technologies are made manifest, and in some cases perpetuate conventions curtailing women's freedom. Reading such films as *Where the Heart Is* (2000), *Riding in Cars with Boys* (2001), *Palindromes* (2004), *Saved!* (2004), *Quinceañera* (2006), *Children of Men* (2006), *Knocked Up* (2007), *Juno* (2007), *Baby Mama* (2008), *Away We Go* (2009), *Precious* (2009), *The Back-up Plan* (2010), *Due Date* (2010), and *Twilight: Breaking Dawn* (2011), Oliver investigates pregnancy as a vehicle for romance, a political issue of "choice," a representation of the hosting of "others," a prism for fears of miscegenation, and a screen for modern technological anxieties.

who formed the deadly Mafia conspiracy and uses his ambitious but corruptible young associate, Walter Elliot III, as his henchman. The House of Deception unveils the Kennedy and Johnson Administrations' blatant manipulation of the democratic process to declare war in order to achieve political agendas. The book makes public Washington's use of the Golden Triangle's "White Gold" to fund the Secret War and addict thousands of GIs to opium. This is the story of two lives destroyed by the House of Deception Lee Oswald, the young Marine fingered by the Warren Commission as the President's assassin, and New Orleans District Attorney Jim Garrison, whose investigation of JFK's murder failed to prove Oswald innocent. In the Vietnam War, America paid the ultimate price with 58,000 lives, a small fraction of the 7 million Southeast Asians who died from the unconscionable abuses of the House of Deception.
