We are not alone. And we never have been. For years we've been taught that human progress has been a long, slow climb from the primordial ooze to hunter-gatherers to empires. But what if that's only part of the story? Bestselling author and legendary conspiracy researcher Jim Marrs now takes on his biggest subject: the history of humankind. Offering mind-blowing information that will radically alter the way we think about the world and our place in it, Marrs goes beyond the revelations of his classic *Alien Agenda*, interweaving science and authentic archaeological finds with provocative speculation to show how human civilization may have originated with nonhumans who visited earth eons ago . . . and may still be here today. Marrs sifts through the historical, scientific, and cultural record, showing how numerous ancient texts and tablets tell of visitors from the stars colonizing the earth. From the flying vimanas of the Hindu Vedic literature and the flying shields reported by the Romans to the mysterious airships of the 1800s and the UFOs of today, he argues that someone other than us is still present on this planet. But are these visitors simply observers—or do they play a much more active and controlling role? Jim Marrs raises this shocking question and more in the provocative and persuasive *Our Occulted History*. The truth is out there . . .

The book investigates what have become of Cameroonian transnational family and friendship ties in the age of the mobile phone and the internet that make people readily available and reachable. Most theoretical literature states that these tools of sociality cement transnational social relationships through instantaneous interaction. To capture the different experiences and impressions on the significance of these media in easing communication for migrants and non-migrants, Tazanu draws on ethnographic accounts based on his fieldwork in Freiburg (Germany) and Buea (Cameroon). He argues that it is mainly the migrants who maintain or are expected to maintain ties with non-migrants back in Cameroon through calls and material support. The main finding of the study is that cell phones and the internet have facilitated discontents, grudges, insults, fights, avoidance, arguments and estrangement of relationships much more than they have contributed to binding friends or families through direct mediation. Underlying these aspects of distancing are the high expectations and sometimes contradictory motives for instant virtual interaction. Non-migrants' accounts suggest that direct availability and reachability should lead to uninterrupted transnational interaction and also that the cultural practices of remittances from migrants are easily requested and coordinated. Such motives are generally contrary to migrants' wishes, willingness or ability to support friends

New World Order. Coincidences? Too many to be mere coincidence? American history is replete with warnings of hidden plots by the Illuminati, the Freemasons, the Zionists, the Roman Catholics, the Communists, World Bankers, the Secret Government, and Extra-Terrestrial Invaders, to name a few. Separating fact from fiction, this compelling work provides gripping details and presents the information without bias, including hundreds of individuals, organizations, and events where official claims and standard explanations of actions and events remain shrouded in mystery. Kennedy and Martin Luther King Jr. to more current issues such as the death of Princess Diana, FEMA's response following hurricane Katrina, and the recent earthquake and tsunami in Japan.

In recent decades, media outlets in the United States—most notably the Internet—have claimed to serve the public's ever-greater thirst for information. Scandals are revealed, details are laid bare because "the public needs to know." In *Publicity's Secret*, Jodi Dean claims that the public's demands for information both coincide with the interests of the media industry and reinforce the cynicism promoted by contemporary technoculture. Democracy has become a spectacle, and Dean asserts that theories of the "public sphere" endanger democratic politics in the information age. Dean's argument is built around analyses of Bill Gates, Theodore Kaczynski, popular journalism, the Internet and technology, as well as the conspiracy theory subculture that has marked American history from the Declaration of Independence to the political celebrity of Hillary Rodham Clinton. The author claims that the media's insistence on the public's right to know leads to the indiscriminate investigation and dissemination of secrets. Consequently, in her view, the theoretical ideal of the public sphere, in which all processes are transparent, reduces real-world politics to the drama of the secret and its discovery.

This is the most in-depth book by Dr. Richard Sauder, the world's premier investigator of underground bases and tunnels. In these pages, Dr. Sauder asks, and often answers, such questions as: - Where are the secret underground bases? - How far down do they go? - What

leaks are coming from the classified world? - What has the U.S. Navy planned for beneath the ocean floor? - Are there bases beneath the ocean? - What's going on beneath Washington, D.C.? - Are there high-speed, underground maglev systems? - What is the connection with UFOs and the alien question? This is a book that truly goes where no other book has gone before. It is a must-read for any and all who are seeking to understand the full magnitude of the Matrix-like reality of our civilization. Using a combination of archival research, on-the-scene investigation, and first-hand interviews, Sauder takes the reader into a world that is under the ground and under the ocean. It is a world that we are supposed to think is impossible, and yet -- after reviewing his evidence -- seems all-too-likely. Jim Marrs, author of bestsellers "Crossfire," "Rule by Secrecy," and "The Rise of the Fourth Reich," said that "Hidden in Plain Sight" should be on your "must-read shelf." Timothy Good, author of the bestseller "Above Top Secret," called Sauder's book "brilliant, fascinating and revealing ... a must for all those interested in, and concerned about, the clandestine underground and undersea world beneath us."

classics, Jana Costas and Christopher Grey identify three forms of secrecy: formal secrecy, as we see in the case of trade and state secrets based on law and regulation; informal secrecy based on networks and trust; and public or open secrecy, where what is known goes undiscussed. Animated with evocative examples from scholarship, current events, and works of fiction, this framework presents a bold reimagining of organizational life.
