It was allegedly based upon interviews with over 100 American millionaires, including self-made industrial giants such as Henry Ford, J. P. Morgan, John D. Rockefeller, Alexander Graham Bell and Thomas Edison, across nearly 20 years. The Law of Success was first presented as a lecture, and was delivered by its author in many major cities and in many smaller localities throughout the United States over a period of more than seven years.

The Law of Success was a precursor to Napoleon Hill's Think and Grow Rich. The Law of Success is organized into sixteen original principles, or lessons. All of them are listed below: 1: The Master Mind- Telepathy, ether, vibration, and how it all is the basis for how the world functions. A master mind is the alliance of two minds joining in a harmonious way. The power that is

formed from two or more minds coming together is more powerful than one alone. This is strictly for minds who trust each other and are interested in the good success of all parties involved. 2: Your Definite Chief Aim- Do not underestimate the value of this due to its simplicity. You need to set an objective before you can achieve it. Not having a solid aim to focus on can not possibly get you to it. You have to know what you want so that you can start receiving it. 3: Self Confidence- Believe that you are worthy of success and that you can attain it. Without this simple understanding- truly understanding it- you will probably get nowhere with most of your goals. If you are not confident, then you cannot sell yourself in life. 4: The Habit of Saving- Stop trying to get a Cadillac if you feel more comfortable paying for a Ford. You are on the path to easily affording a Cadillac. 5: Initiative and Leadership- Addresses the importance of leadership skills (yes, they can be habituated and you don't have to be a born leader). Here, Hill acknowledges the penalties of leadership. Leaders are not always spoken of sweetly. This should not deter you from becoming a leader. It is only "genius" that attracts the attention of critics. Nobody bothers slandering a person who isn't somewhere near the upper rings of the ladder of success. 6: Imagination- Dream, and use your imagination to help lead you to the attainment of your goals. The making good decisions comes with use, and your intuition will always lead you toward your dream. Dreams and actions are closely related. 7: Enthusiasm- Compels you to act. Mix enthusiasm with your work- do something you are enthusiastic about- and you will not get tired nearly as quickly. Hill explains the things that can contribute to enthusiasm, one being to wear nice clothes. Basically, if you look like a million bucks, you'll feel like a million bucks, and you will likely find yourself around a million bucks. The opposite is also true, and this is to be avoided. Feel good about your appearance, because it also affects the first impression of you on others who can be instrumental in your path to success. 8: Self Control- Auto suggestion is like reprogramming your subconscious mind to believe what you want it to believe- to replace your old beliefs with new ones that will serve you better. This takes self control. Have you ever tried to change a habit? It makes sense. When you take control over the thoughts you are thinking, then you can take control of your success. Make these thoughts the ones you want to believe, and see yourself the way you want to see yourself. 9: Habit Of Doing More Than Paid For- If you are going to whine about your work, then you are not going anywhere. Do the work you have in front of you, then ask what else you may do. By doing this, you make yourself valuable, and you will surely reach a point where you are being paid handsomely. Valuable employees are... valuable. This is also and especially true when you are working for yourself. 10: Pleasing Personality- Have one. Don't point things out on people, don't hang your head and say "I'm tired". Mediocrity does not care if you are pleasant or not. Success does. The Law of Success was a precursor to Napoleon Hill's Think and Grow Rich. Hill was well known for researching what made millionaires different from the common man. * Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will learn four fundamental lessons to achieve all your goals and make your daily life a success. In particular, you will learn how to : have great ideas; be resolute and consistent; have confidence in yourself; save effectively. Why do some people achieve amazing success even from scratch, while others work all their lives and have almost none at all? What makes Edison, Ford, Tesla, Carnegie or Napoleon different from the average person? A superficial analysis might be content to

conclude that their success was due to genius, and that's all. But this superficial explanation did not satisfy the author, who, on the contrary, sought to find the secrets of their accomplishments. By questioning hundreds of people at the height of their glory, and by studying the lives of the great men of the past, he realized that all of them achieved success, consciously or not, by faithfully applying tacit "laws" - which he called "the laws of success. Respecting them will also allow you to quickly reach your goals. Here are the first four. Are you curious about them? *Buy now the summary of this book for the modest price of a cup of coffee!
