Easy to use and packed with market intelligence on all 500 of the companies listed in the S&P 500 Index, this authoritative reference includes: Information on the bluest of blue chip stocks, from Abbott Labs and GE to Microsoft and Yahoo! Summaries of each company's business activity, sales history, and recent developments Earnings and dividends data, with three-year price charts Exclusive Standard & Poor's Quality Rankings (from A+ to D) New introduction by David M. Blitzer, Ph.D., Managing Director & Chairman of the Index Committee, Standard & Poor's In addition, unique at-a-glance detail: Stocks with A+ Quality Rankings Companies with five consecutive years of earnings increases--a key indicator of strong long-term performance! Companies with 10 consecutive years of increasing dividends Put the comprehensive, updated data and analysis expertise of the world's premier securities information firm at your fingertips, with Standard & Poor's 500 Guide, 2010 Edition. Standard & Poor's, a division of The McGraw-Hill Companies, Inc., is the nation's leading securities information company. It provides the respected Standard & Poor's ratings and stock rankings, advisory services, data guides, and the most closely watched and widely reported gauges of stock market activity—the S&P 500, S&P MidCap 400, S&P SmallCap 600, and S&P Super Composite 1500 stock price indices. Divisions of Standard & Poor's operate independently of each other. Standard & Poor's, S&P, S&P 500 are registered trademarks of Standard & Poor's Financial Services LLC.

The current educational system continues to face challenges in the wake of new technological advancements in our society. Continuous advances in education technology have provided the mobile learning community with inquiries on how these innovative devices may be used for teaching. Innovations in Mobile Educational Technologies and Applications presents a collection of knowledge on the developments and approaches of mobile educational technology. Bringing together points of view from both technological and pedagogical practices, this book aims to enhance interest in nontraditional approaches to learning.

This guide is designed for musicians and music professionals who wish to hone their knowledge of the music business. It is intended as a practical tool to help composers, performers and all those involved in the music world get into the specifics of the management of their intellectual property rights. The guide aims to provide instructive advice on how to build a successful career in music in both developed and developing countries, by generating income from musical talent.

Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. The cell phone is the fastest-selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Meanwhile, wireless networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such 802.11 standards as Wi-Fi and WiMax, as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels, from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Our coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and a listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. Our 350 company profiles include complete business descriptions and up to 27 executives by name and title.

For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide.
